

CLEAN WATER + SMART STORAGE

Limit stacked water cases to 2 in a 2 square foot area*

NO

YES

1 BE AWARE!

**Stacking
Water
Too High
Can Cause
Floor
Collapse**

2 Typical 24 bottle case is 28+ lbs

3 Average water bottle is 16.9 oz

Average reusable water storage container is 5 gallons

4

42#

5 gallons of water is 42 + lbs

5

PRACTICE SMART WATER STORAGE

■ The **best place** to store water is in a **basement or garage** on a **concrete floor**

■ If you **do not have** a **garage or basement** with **concrete floor**: Water is **safest stored against an exterior wall** rather than middle of a room
